

PSY 550 Module Six Journal Guidelines and Rubric

Overview: To complete this journal assignment, you will take a personality test, the IPIP-NEO (International Personality Item Pool Representation of the NEO PI-R). You will then review results from a Sample Personality Results Report and reflect on your own personal experience and the feedback provided in the report.

Prompt: This journal assignment will allow you to reflect on your own experience taking a personality test, along with the results of a sample report.

First, take either the original or short version of the [IPIP-NEO](#).

Next, review the results provided from the MMPI-2 and MCMI-III in the Sample Personality Results Report.

Finally, in your response, reflect on the experience of taking the IPIP-NEO. Consider the following questions in your reflection:

- What do you think is the **usefulness of knowing the results from the IPIP-NEO**?
- Did you **agree with the results**?
- How would you feel if you received the **feedback from the Sample Personality Results Report**?
- How do you think these results could **inform treatment**?
